CASHING OUT CRYPTO

You earned it in crypto. Why is getting it to the bank still a guess?

THE USUAL WAY

Three places your money leaks on the way home.

01 **Custody**
You hand funds to an exchange, or trust a stranger on a P2P market.
RISK

02 **Spreads you can't see**
The real rate is only clear after you've committed.
COST

03 **Withdrawals and waiting**
Several steps, several fees, hours to days.
TIME

THE LAMPORTPAY QUOTE
