A LAMPORTPAY STORY

From a salary in Dubai to a mother's bank account in India.

How Rahul supports his mother, Asha, without handing his money to anyone.

KOCHI, INDIA

Every month, Asha waits.

Her son's support pays for the house, the medicine and the little things.

DUBAI, UAE

Rahul works in tech. Part of his pay is in crypto.

Getting it home to his mother's bank account was never simple.

THE OLD WAY

Exchanges, queues and fees he never saw coming.

WITH LAMPORTPAY

One app. One signature.

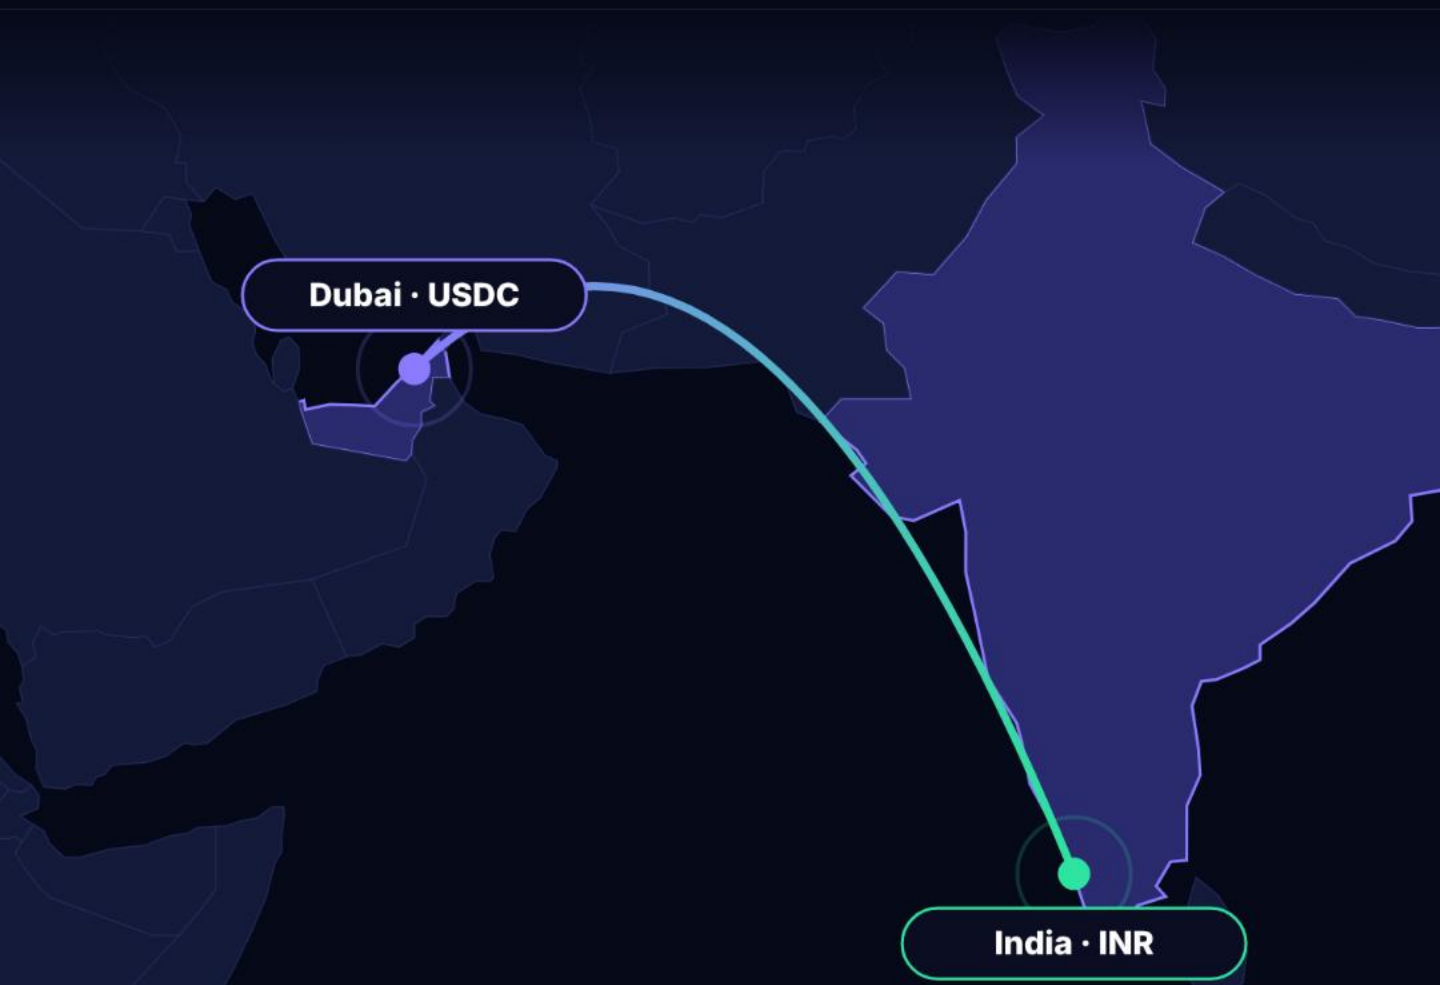

He sees the exact INR his mother will receive, every fee on its own line, and signs once in his own wallet.

DUBAI → INDIA

From his wallet, straight to her bank.

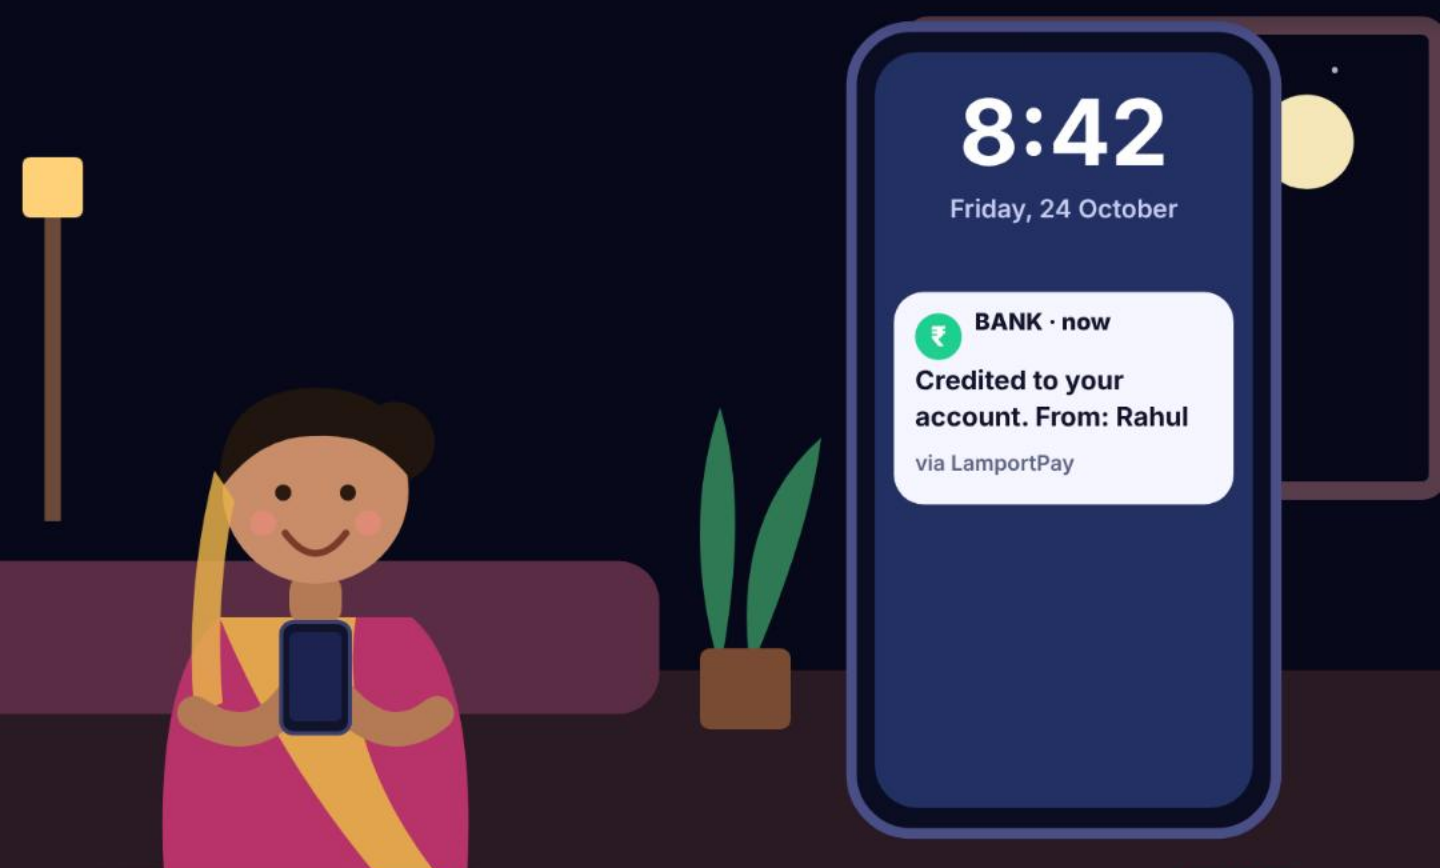

USDC on Solana, paid out in INR by our licensed payout partner, Stables.

BACK HOME

The message she was waiting for.

No one in the middle holding the money. Just a son and his mother.

Crypto in. Local money out.

Non-custodial

Full cost before you sign
